

UCRP Pension Plan

The University of California's Retirement Plan (UCRP) has traditionally been a defined benefit plan (DBP). The plan pays a specified pension amount which is predetermined by a formula based on the employee's highest average plan compensation (HAPC), years of UCRP service credit and age of the employee at retirement. Employees hired after July 1, 2016 may choose between the above plan and a DCP (Defined Contribution Plan).

Employees and the University of California (UC) contribute to the UCRP retirement plan.

To be eligible to retire, UC Davis employees must:

1. Be at least age 50 on their retirement date (if hired prior to July 1, 2013), or be at least 55 on their retirement date (if hired on or after July 1, 2013) AND
2. Have at least five years of UCRP service credit

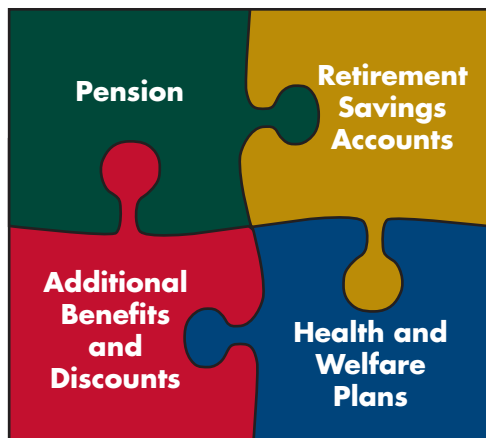

For additional information about the UC's pension plans, please see the UC Retirement Handbook: <http://ucnet.universityofcalifornia.edu/forms/pdf/retirement-handbook.pdf>, or, if hired after July 1, 2016: <http://ucnet.universityofcalifornia.edu/forms/pdf/complete-retirement-benefits-guide-for-employees.pdf>

Retirement Savings Accounts

In addition to the pension plan, UC offers two retirement savings accounts options. Many employees make voluntary pretax contributions to the 403(b) plan and/or the 457(b) plan. Also available is a tax-deferred Defined Contribution (DC) Plan, to which certain employees are required to pay (primarily part-time, temporary, and seasonal employees, and some academic appointees) and an after-tax DC plan to which employees may make voluntary contributions.

Future income from these plans is based solely on the amount of money contributed plus any earnings. Fidelity Retirement Services administers UC's retirement savings accounts. Class schedules, information and employee account balances can be found at UC's Fidelity website at <https://myucretirement.com/>.

Health/Welfare Plans

UC currently offers continuation of medical, dental, vision, as well as AD&D, legal and CalCasualty home/auto insurance to eligible UCRP members who elect to receive monthly UCRP retirement income. Only medical, dental and legal can be deducted from pension checks. These are not accrued or vested benefit entitlements. UC's contribution is determined annually and may change or stop altogether.

Eligibility for retiree health benefits varies by the employee's date of hire:

1. Employees who originally joined UCRP prior to 1990 are generally not subject to graduated eligibility and qualify for 100% of the UC contribution.
2. Employees who joined UCRP in or after 1990 but before July 1, 2013 (and Safety employees hired on or after July 1, 2013) are subject to the graduated eligibility rules outlined in the 1976 Tier Summary Plan (see link below). Employees in this tier must have 10 years of service credit and be at least 50 years old to receive a contribution toward retiree health benefits.
3. Employees who joined UCRP in or after July 1, 2013 are subject to the graduated eligibility rules outlined in the 2013 Tier Plan. Employees in this tier must have 10 years of service credit and be at least 56 years old to receive a contribution toward retiree health benefits.

Additional Privileges and Discounts

UC Davis retirees are eligible for a variety of additional privileges and discounts, including a complimentary retiree (RT) parking permit, library access and the option to retain their email address (eligible emeriti) or apply for complimentary email forwarding service (Davis campus staff only). Additionally, retirees may obtain a retiree *AggieCard*, which entitles them to discounts at a variety of campus units, including the Department of Athletics, the Department of Campus Recreation, the Mondavi Center and the Sodexo dining establishments.

It is Never too Early to Start Planning for Retirement

For additional information about retirement from UC Davis, please visit the UC Davis Retiree Center's website at <http://retireecenter.ucdavis.edu/planning/index.html> or contact the Center at retireecenter@ucdavis.edu or (530) 752-5182.

For additional information about the UC's pension plans, please see the UC Retirement Handbook at the following link:

<http://ucnet.universityofcalifornia.edu/forms/pdf/retirement-handbook.pdf>

HOW RETIREMENT INCOME IS CALCULATED

UC Retirement Plan (UCRP) benefits calculations have changed for employees who become eligible to participate after July 1, 2013. A member who first became eligible to participate before July 1, 2013, will accrue benefits in the 1976 Tier. Those hired on or after July 1, 2013, will accrue benefits in the 2013 Tier. In the chart below, the 1976 Tier is shown in green and the 2013 Tier is shown in salmon. A member who began accruing benefits before July 1, 2013 and who has a break in service and later returns to eligible UC employment on or after July 1, 2013 will accrue additional service under the 2013 Tier. To calculate basic retirement income:

1. Calculate the benefit percentage (not to exceed 100%):
2. Multiply the benefit percentage by your HAPC*.

Service credit x age factor*

- * The age factor is based on your age in years and months on the date of your retirement

Examples at 2.5% (1976 Tier age 60; 2013 Tier age 65):

- 20 years x .0250 = 50.0% (benefit percentage)
- 30 years x .0250 = 75.0% (benefit percentage)
- 40 years x .0250 = 100.0% (benefit percentage)

Examples at 1.1% (1976 tier age 50; 2013 Tier age 55):

- 20 years x .0110 = 22.0% (benefit percentage)
- 30 years x .0110 = 33.0% (benefit percentage)
- 40 years x .0110 = 44.0% (benefit percentage)

- * Highest Average Plan Compensation or HAPC is your average monthly salary (full-time equivalent compensation) calculated over the highest 36 continuous months preceding retirement (not necessarily the last 36 months).

For members with Social Security, HAPC is reduced by \$133 to account for UC's Social Security contributions.

Example: Your benefit percentage is 50.0 percent. The HAPC is \$4,133.

50.0% of (\$4,133 – \$133 = \$4,000) = \$2,000

Your basic retirement income is \$2,000 per month.

Age Factor	.0110	.0124	.0138	.0152	.0166	.0180	.0194	.0208	.0222	.0236	.0250
