UC DAVIS MEDICAL CENTER

September 12, 2018

Dear Selection Committee Members:

It is my pleasure and honor to nominate Dr. Fu-Tong Liu, MD, PhD, currently Vice-President of the Academia Sinica Taiwan, for the UC Davis Distinguished Emeritus Award.

Dr. Liu received his BS degree in Chemistry from National Taiwan University and PhD degree in Chemistry from University of Chicago. He performed postdoctoral work first in organic chemistry, next in immunology, and then joined the faculty at the Scripps Research Institute. He attended the two-year PhD to MD program at University of Miami and then received dermatology residency training at University of California-San Diego, while maintaining his research program. Rising in rank at Scripps, he served as Heads of the Allergy Research Section at the Scripps Research Institute and of the Division of Allergy at La Jolla Institute for Allergy and Immunology. He was appointed Professor (and then Distinguished Professor) and Chair of Dermatology, University of California-Davis. Since 2010, he has been Distinguished Research Fellow and Director, Institute of Biomedical Sciences, Academia Sinica, Taiwan. For the first two years, he was jointly employed by UC Davis and Academia Sinica. He became Professor Emeritus of UC Davis in 2012 and was appointed Vice President of Academia Sinica in 2016. I should mention that the Academia Sinica is the preeminent academic institution in Taiwan with an annual budget of US \$0.55 billion and 8000 employees in 2016 with extensive research in humanity, physical sciences and life sciences.

Dr. Liu has made major contributions to the fields of allergy, dermatology, and glycobiology. He contributed to the discovery and naming of the protein family galectins (galactose-binding animal lectins). Investigation of galectins is now a major branch in the field of glycobiology; there have been close to 7,000 scientific papers published to date with the keyword galectin. Developments in this area have had major implications for health and disease. Dr. Liu is highly regarded internationally as a pioneer in the studies of galectins and a major contributor in the field of glycobiology. His own work has elucidated the roles of galectins in immunity, cancer, and adiposity. After he became Professor Emeritus, he continued to keep active research laboratory at Academia Sinica and publish high quality original research articles. His h-Index is 90 (according to Google Scholar). Since 2010, he has given over 100 lectures as invited speakers at national or international conferences or at universities.

As Chair of Dermatology at UC Davis for ten years, Dr. Liu established strong basic science programs as well as clinical programs in the Department. He transformed the Department from a small clinical division at UC Davis School of Medicine to a much larger Department currently with the 5th highest clinical revenue in the medical school. Perhaps more importantly, he placed UC Davis Dermatology on the research map by recruiting high level researchers that currently place UC Davis in the top 9 NIH-funded dermatology departments in the nation.

Over the last eight years, at Academia Sinica, he developed a number of initiatives, including the studies of “inflammation and disease” and “glycomedicine”, by engaging investigators at various institutes at Academia Sinica, as well as other institutions in Taiwan. More importantly, he has promoted science in Taiwan by leading a number of cutting-edge research and educational programs.

These include 1) strengthening research in immunology and promoting collaborations in this area (he is on the board of directors of Chinese Society of Immunology); 2) coordinating a national effort to promote research in glycoscience, and assisting a large number of investigators to get into this field (he is now overseeing the nationwide Glycoscience Program funded by the Ministry of Science and Technology); 3) facilitating research in investigative dermatology (he served as President of Taiwanese Society for Investigative Dermatology for three years); 4) serving in leadership positions in a number of educational programs. He is Director of the Translational Medicine Degree Program and plays a leadership role in the Taiwan International Graduate Program (TIGP), both at Academia Sinica; the students for the latter are mainly from developing countries; and 5) promoting the development of translational research program such as the Taiwan Biobank, a 12-year government-funded program initiated in 2012 aimed at banking health data and biospecimens from 200,000 healthy individuals and 100,000 subjects for 12 different disease categories.

Since 2016, as Vice President of Academia Sinica, Dr. Liu has taken up responsibilities to oversee a number of additional research and educational programs both at Academia Sinica and nationally. A major responsibility is overseeing the development of National Biotechnology Research Park, which was completed in June 2018, as well as its future operations, as Chair of the Joint Governing Board.

In his career, Dr. Liu has been collaborating with a large number of scientists in many countries, including a number of developing countries. He has made precious reagents and tools, including genetically engineered mice and monoclonal antibodies, available to a large number of laboratories in these countries, and provided guidance on their research. He has published a total of over 100 original articles with scientists in these countries. After he became Professor Emeritus, he continued to be engaged in many of these and new collaborations.

Dr. Liu continues to serve on the editorial board of a number of journals. These include Section Editor, Journal of Dermatological Science (till early 2018); Editorial Board, Clinical Reviews in Allergy and Immunology; Editorial Board, Journal of Medicinal Food; Reviewer Board, Journal of Allergy and Clinical Immunology; Editorial Board, Experimental Dermatology; Advisory Editorial Board, Kaohsiung Journal of Medical Sciences; Editorial Board, Glycobiology.

Dr. Liu was Elected to Academician (Taiwan equivalent of National Academy of Science, USA), Academia Sinica, Taiwan, in 2012. He was elected to American Association for the Advancement of Science (AAAS) Fellow, in 2013. He was First KIA Laureate of the 28th Khwarizmi International Award, in 2015. He received a Distinguished Scholar Award, the Phi Tau Phi Scholastic Honor Society, in 2017.

After he became Professor Emeritus, Dr. Liu has been an outstanding ambassador of UC Davis. In nearly all of the publications in which he served as corresponding author, UC Davis was listed together with Academia Sinica as an affiliating institution. He has been devoting a great deal of efforts to promoting interaction and collaboration between Academia Sinica and UC Davis. For example, he has invited a large number of UC Davis faculty to Taiwan as speakers in lectureships, conferences, or seminars. He

was instrumental in continuation of the UC Davis Quarter abroad program on Pharmaceutical Chemistry at the Academia Sinica. He led three Academia Sinica delegations to attend bilateral conferences at UC Davis, one on Neuroscience, another on Chemical Biology, and the third on Genome, Glycome, and Microbiome of Plants and Animals.

In summary, Dr. Fu-Tong Liu is one of those rare individuals who has not only been a “star” in his scientific field, but has also been a transformative leader. His leadership at UC Davis was critical in making Dermatology at UC Davis a national leader with an NIH ranking that exceeds those of Duke, NYU, and some of the Harvard programs. During and then following his full-time faculty time at UC Davis, Dr. Liu returned to Taiwan to bring critical and scientific skills to his native country. His rapid rise in the leadership of the Taiwanese research community affirms his ability to make innovative, positive change. Needless to say, he has been an inspiration to countless students, fellows/residents, and young scientists both here and in Taiwan. In consideration of this award application, I would note that his work in Taiwan after he became Emeritus Professor is arguably the best and most important of his career given the sheer scope of the projects and number of researchers involved. I proudly nominate him for this distinguished award and hope that the committee feels likewise. Please feel free to contact me with questions.

Respectfully yours,

A handwritten signature in black ink, appearing to read 'STHwang' with a circled 'MD, PhD' to the right.

Samuel T. Hwang, MD, PhD
Chair and Professor
Department of Dermatology
UC Davis School of Medicine

CURRICULUM VITAE

Fu-Tong Liu, MD, PhD

Current Position

Vice President
Academia Sinica
Distinguished Research Fellow
Institute of Biomedical Sciences
Academia Sinica, Taiwan

Professor Emeritus
Department of Dermatology
UC Davis

Education

National Taiwan University, Taipei, Taiwan, R.O.C., 1966-1970
B.S. in Chemistry, 1970
The University of Chicago, Chicago, Illinois, 1971-1975
Ph.D. in Chemistry, 1976
The University of Miami School of Medicine (Ph.D. to M.D. Program), 1985-1987.
M.D., 1987

Professional Record

Professor and Chair (2001-2010), Distinguished Professor (2011-2012), Professor Emeritus (2012-present), Department of Dermatology, University of California, Davis, School of Medicine, Sacramento, California
Distinguished Research Fellow and Director (2010-2017), Distinguished Research Fellow (2017-present), Institute of Biomedical Sciences, Academia Sinica, Taiwan
Professor (joint appointment), National Taiwan University, College of Medicine, Department of Dermatology, Graduate Institute of Immunology and Division of Microbiology, Taiwan, 2011-present
Adjunct Professor, Institute of Clinical Medicine, National Yang-Ming University, College of Medicine, 2011-present
Vice President, Academia Sinica, Taiwan, 2016-present

Awards and Honors

Elected to membership in American Dermatological Association, 2011
Honorary member, Taiwanese Dermatological Association, 2011
Elected to Academician, Academia Sinica, Taiwan, 2012
Elected to American Association for the Advancement of Science (AAAS) Fellow, 2013
Chair Professor, Kaohsiung Medical University, 2013-present
Chair Professor, China Medical University, 2014-present
Chair Professor, Tzu Chi University, 2015-present
Distinguished Chair Professor, I-Shou University School of Medicine, 2016-present
President, Taiwanese Society for Investigative Dermatology, 2015-2018

Khwarizmi International Award, 2015
President Shih-Liang Chien Lectureship, Academia Sinica, 2016
Distinguished Scholar Award, the Phi Tau Phi Scholastic Honor Society, 2017

Major Current Administrative Responsibilities

Program Director, Taiwan Biobank, 2012-present
Director, Translational Medicine Degree Program, Academia Sinica, 2012-present
Program Director, National Glycoscience Program, Ministry of Science and Technology, 2014-present
Board of Directors, National Health Research Institutes, 2016-present
Chair, Board of Directors, Pacific Science Association (PSA)-Republic of China Chapter, 2017-present
Director, Taiwan Animal Core Consortium (for phenotyping and drug evaluation), 2017-present
Chair, Joint Governing Board, National Biotech Research Park, 2017-present

Research Interests

Allergic inflammation, Glycobiology (Galectins: roles in immunity, inflammation, cancer, and adiposity), and Dermatology

Board Certification

The American Board of Dermatology, 1993 (renewed 2003, 2013)

Editorial Boards

Section Editor, Journal of Dermatological Science, 2005-2018
Editorial Board, Clinical Reviews in Allergy and Immunology, 2005-present
Editorial Board, Journal of Medicinal Food, 2007-present
Reviewer Board, Journal of Allergy and Clinical Immunology, 2008-present
Editorial Board, Experimental Dermatology, 2013-present
Advisory Editorial Board, Kaohsiung Journal of Medical Sciences, 2014-present
Editorial Board, Glycobiology, 2016-present

Professional Organizations

American Academy of Dermatology
American Association for the Advancement of Science
American Association of Immunologists
American Chemical Society
American Dermatologic Association
American Society for Clinical Investigation
American Society for Investigative Pathology
Association of American Physicians
Association of Professors of Dermatology
Chinese Society of Cell and Molecular Biology
Chinese Society of Immunology
Society for Investigative Dermatology
Taiwan Society for Biochemistry and Molecular Biology

Taiwanese Dermatological Association (Honorary)
Taiwanese Society for Investigative Dermatology

Grant reviews (NIH)

NIH, Ad hoc review committees, 1992, 1994, 1996, 1998 (2), 2002 (2), 2003, 2004, 2005 (2), 2007 (3), 2009 (3), 2010

NIH, review panel for “Atopic Dermatitis Research Network (ADRN) and the ADRN Statistical and Clinical Coordinating Center” (Chairperson), 2010

NIH, reviewer, NIH Director’s Early Independence Awards (DP5), 2014

NIH, reviewer, Special Emphasis Panel (ZRG1 IMM-D) related to hypersensitivity and immune-mediated diseases, 2015

Grant review (Taiwan)

Reviewer, National Research Program for Biopharmaceuticals, 2011

Reviewer, NHRI-KMU co-operative project progress review, 2011

Member, Research Proposal Review Committee, Translational Research Program, Academia Sinica, 2010-present (Chair 2013-present)

Ad Hoc Reviewer, National Research Program for Biopharmaceuticals, 2012-2016

Ad Hoc Reviewer, National Science Council (Ministry of Science and Technology), 2012-present

Reviewer, National Health Research Institute, Intramural program, 2014

Reviewer, Evaluation of Institute of Molecular Medicine, College of Medicine, National Taiwan University, 2015

Reviewer, Program Projects, Kaohsiung Medical University, 2016

Member, the International Consultant Board for the Lipid Science and Aging Research Center (LSARC) at Kaohsiung Medical University, 2017-present

Grant reviews (other funding agencies)

Reviewer, Research Grant Council, Hong Kong, 2010

Reviewer, the Austrian Science Fund, 2012

Dutch Cancer Society, grant reviewer, 2014

Reviewer, The Canadian Glycomics Network (GlycoNet), a recently established Canadian Networks of Centres of Excellence, 2015

Reviewer, The Canadian Glycomics Network (GlycoNet), 2018

Societies/Associations/Programs

Member, American Skin Association Medical/Scientific Advisory Committee, 2004-present

Member, University of Southern California, NIH Ultrasound Transducer Resource, Advisory Committee, 2008-2010

Intramural (US)

Council of Chairs, UC Davis Health System, 2001-2012

Medical Staff Executive Committee, UC Davis Health System, 2001-2010

Internal Advisory Board, UC Davis Cancer Center, 2003-2012
Member, Institutional Research Grant Review Committee, 2006, 2008
Executive Committee, NCI/NIH-funded training program (T32) in Oncogenic Signals and Chromosome Break, UC Davis, 2006-present
Cancer Center Executive Committee, 2007-2010
Member, Finance Committee, Practice Management Board, UC Davis Health System, 2007-2012

Intramural/Extramural (Taiwan)

Advisory Council, National Taiwan University, College of Medicine, 2010-present
Scientific Advisory Board, Genomic Research Center, Academia Sinica, 2011-2013
Member, Research Specialist Evaluation Committee, Academia Sinica, 2010-2013
Member, Integrity in Administration Evaluation Committee, Academia Sinica, 2010-2011
Advisory Committee, Incubation Center, Genomic Research Center, Academia Sinica, 2011-present
Advisory Council, National Synchrotron Radiation Research Center, Taiwan, 2011-present
Appointment and promotion committee for technical track scientists, Academia Sinica, 2011-present
Member, Environment, Safety, Health Management Committee, Academia Sinica, 2010-2013
Member, Board of Directors, Chinese Cell and Molecular Biology Society, 2011-present
Member, Board of Directors, Taiwanese Society of Investigative Dermatology, 2011-present
Principle Investigator, Taiwan Biobank, 2012-present
Member, Bioimaging Advisory Council, National Synchrotron Radiation Research Center, 2011-2014
Member, Administrative and Technical Staff Evaluation Committee, Academia Sinica, 2011-2014
Member, Research Development Administration Committee, Academia Sinica, 2012-2014
Organizing leader, Animal models of human diseases, National Research Program for Biopharmaceuticals, 2012-2017
Advisory Board, Show Chwan Health Care System, 2012-2016
Member, Curriculum Development Committee, Taiwan International Graduate Program, Academia Sinica, 2012-2015
Member, Campus Design Committee, Academia Sinica, 2012-2014
Associate Director, Translational Medicine Graduate Program, Academia Sinica, 2012-present
Coordinator, Core Facilities, National Biotechnology Research Campus Design Committee, 2012-2017
Advisory Board, I-Shou University, 2012-2013
Member, Nano Program Task Force, Academia Sinica, 2013-present

Member, Medical Center Evaluation Committee, Ministry of Health and Welfare, 2013

Member, Academic Research Performance Evaluation Committee, Academia Sinica, 2013-2014

Member, Executive Committee, the Tang Prize (Asian Equivalent of the Nobel Prize), 2013-present

Member, Organizing Committee, Academician Quarterly Meetings, Academia Sinica, 2013-2014

Member, Review Committee, Young Scholar Outstanding Scholarly Work, Academia Sinica, 2013-2015

Member, Director Selection Committee, Institute of Biological Chemistry, Academia Sinica, Taiwan, 2015-2016

Director, National Glycoscience Program funded by Ministry of Science and Technology, Taiwan, 2014-present

Advisory Board, Infectious Disease and Cancer Research Center, Kaohsiung Medical University, 2014- present

Advisory Board, Biomarker and Biotechnology Development Center, Kaohsiung Medical University, 2014- present

Member, Board of Directors, Taiwan Antibody Association, 2014-present

Co-Director, International Collaborations, National Research Program for Biopharmaceuticals, 2015-2017

President, Taiwanese Society for Investigative Dermatology, 2015-2018

Member, Director Selection Committee, Genomics Research Center, Academia Sinica, Taiwan, 2015-2016

Director, Program Office, Resource Centers, National Research Program for Biopharmaceuticals, 2016-2017

Chair, Committee for Evaluation of Professional School of Veterinary Medicine, National Taiwan University, 2016

Member of over 20 committees (Chairing a number of them) at Academia Sinica, as the function of Vice President of Academia Sinica, 2016-present

Director, Taiwan Animal Core Consortium, 2017-present

Chair, Joint Governing Board, National Biotech Research Park, 2017-present

Chair or co-Chair of 22 Committees at Academia Sinica, as Vice President of the organization, 2016-present.

Teaching Activities/Programs (Taiwan)

Faculty, Glycoimmunology Course, National Yang-Ming University, Taiwan, 2010

Faculty, Molecular Medicine Program, Academia Sinica, Taiwan, 2010-present

Faculty, Taiwan International Graduate Program, Academia Sinica, 2010-present

Faculty, Graduate Institute of Immunology, National Taiwan University, College of Medicine, 2011-present

Faculty, Institute of Clinical Medicine, National Yang-Ming University, 2011-present

Chair, Organizing Committee, International Conference on Inflammation and Disease, Academia Sinica, 2011

Member, Education Committee, Graduate Institute in Life Sciences, National Defense Medical Center, 2010- present

Chair, Admission Committee, Translational Medicine Graduate Program, 2012-present

Chair, Organizing Committee, 2012 International Sialoglyco Conference, Academia Sinica, 2012

Member, Award Selection Committee, TienTe Lee Medical Foundation, 2012-present

Chair, Organizing Committee, NHRI/IBMS International Conference of Inflammation, Cancer, and Metabolic Syndromes, Academia Sinica, 2012

Member of Board of Director, The Chinese Society of Cell and Molecular Biology, 2013-present

Consultant, TienTe Lee Award Laureate Club, 2013-2016

Faculty, Glycomedicine Course, National Yang-Ming University, 2014

Faculty and Director, Glycoscience Workshop, Ministry of Science and Technology, Academia Sinica, 2014

Faculty, Translational Medicine, Translational Medicine Degree Program, Academia Sinica, 2014

Faculty, Introduction to Life Science, National Defense Medical Center, 2014

Chair, Organizing Committee, NHRI/IBMS International Conference of Inflammation and Disease, 2014

Co-Chair, Organizing Committee, Glycoscience Symposium (Glycoimmunology), Academia Sinica, 2014

Faculty and Director, Glycoscience Workshop, Ministry of Science and Technology, Academia Sinica, 2014

Co-Chair, Organizing Committee, Japan-Taiwan Nanomedicine Symposium, Academia Sinica, 2015

Faculty and Director, Glycoscience Workshop, Ministry of Science and Technology, Academia Sinica, 2015

Co-Chair, Organizing Committee, Glycoscience Symposium (Chemical Biology), Academia Sinica, 2015

Convener, Theme 4 (Health), Pacific Science Conference, Taipei, Taiwan, 2016

Faculty and Director, Glycoscience Workshop, Ministry of Science and Technology, Academia Sinica, 2016

Journal Reviews (since 1996 listed) (The number in parenthesis indicates the number of articles reviewed for the journal in the year)

- 2010 American Journal of Pathology, Cancer Research, Dermatology Online Journal (2), European Academy of Dermatology and Venereology, FAEB Journal, Future Cardiology, Glycobiology (2), Journal of Autoimmunity (6), Journal of Dermatological Science (20), Journal of Immunology (3), Journal of Allergy and Clinical Immunology (7), Journal of Cellular and Molecular Medicine, Journal of Medical Food (2), Molecular Immunology, Neurosurgery, Oncogene.
- 2011 American Journal of Pathology (3), Angiogenesis, Arch Oral Biology, Biochimica et Biophysica Acta, Clinical and Experimental Allergy, FASEB Journal, Frontiers in T Cell Biology, Journal of Autoimmunity (4), Journal of Allergy and Clinical Immunology (8), Journal of Dermatological Science (15), Journal of Immunology (3), Journal of Investigative Dermatology, Journal Leukocyte Biology (2), Journal of

Tokyo University-National Taiwan University Frontier Bioscience Joint Symposium, Taiwan

SNUCRI Cancer Symposium: Innovative Approaches to Explore Novel Druggable Targets, Hwasun-gun, Jeollanam-do, Korea

National Taiwan University Veterinary Hospital, Taiwan

2015 Taiwanese Allergy Asthma and Clinical Immunology Society Annual Meeting, Taiwan

Chung-Shan Medical University, College of Life Sciences, Taichung, Taiwan

2015 Taiwan-US Biotech Business Forum, Philadelphia, PA

Merck Research Laboratories, Boston, MA

Department of Chemistry, University of California-Davis, Davis, CA

EMBO Workshop on Cell Biology of Animal Lectins, Weizmann Institute, Israel

University of Michigan Medical School-Taiwan Bilateral Meeting, Academia Sinica, Taiwan

15th SCBA International Symposium of the Society of Chinese Bioscientists in America, Academia Sinica, Taiwan

Glyco²³: 23rd International Symposium on Glycoconjugates, Split, Croatia

Tzu Chi University. Frontier of Medical Science: From Translational Medicine to Epidemiology, Hualien, Taiwan

Bilateral Workshop, Academia Sinica-Institute for Glycomics, Griffith University, Australia

2nd International Conference of Traditional and Complementary Medicine on Health, Taiwan

Mini-Symposium on Soft X-ray Tomography in Biomedical Sciences, Academia Sinica, Taiwan

Tzu Chi University, Chair Professor Lecture

2016 Tzu Chi University, Chair Professor Lecture

Taiwan-Japan Nanomedicine Symposium, Kyoto, Japan

Genentech, San Francisco

Professor Tung-Bi Lo 90th Birthday Symposium, Academia Sinica, Taiwan.

President Shih-Liang Chien Lectureship, Academia Sinica, Taiwan

Academic Research Organization, Tokyo, Japan

AS IBMS-RIKEN IMS Joint Workshop, RIKEN, Yokohama, Japan

26th Annual Meeting of the Korean Society for Investigative Dermatology, Seoul Korea

Taiwan Rheumatology Association, Annual Spring Meeting, Taiwan

National Central University, Department of Biomedical Sciences, Distinguished Lecture Series, Chung-Li, Taiwan

Formosa Medical Association Spring Meeting, Taiwan

2016 IMMUNOLOGY (AAI annual meeting) Chinese Society of Immunology, Taiwan (CSIT) Symposium

9th International Conference and Commemorate Lecture of Pin-Wen Lin of Pancreatic Cancer, National Cheng-Kung University, Tainan, Taiwan

International Conference on Biomedical Sciences, China Medical University,

- Taichung, Taiwan
 7th Annual Institutes of Clinical Medicine Joint Research and Teaching
 Workshop
 TienTe Lee Award Laureate Club
 International Advanced Immunology Summer School, China Medical University,
 Taichung, Taiwan
 Asia ARO Network Workshop, Osaka, Japan
 Post-HUPO Glyco mini-symposium, Academia Sinica, Taiwan
 第十二屆海峽兩岸三地植物分子生物學與生物技術學術研討會
 EMBO Workshop, Transducing Glycan Information into Function: Lessons from and
 for Galectins, Nice France.
- 2017 Tzu Chi University, Chair Professor Lecture
 Wang-Fang Hospital, Taipei, Taiwan
 I-Shou University, Kaohsiung, Taiwan
 Mackay Medical College, New Taipei, Taiwan
 Tri-Service General Hospital, Taipei, Taiwan
 Changhua Christian Hospital, Changhua, Taiwan
 Taichung Armed Forces General Hospital, Tai-Chung, Taiwan
 12th Jenner Glycobiology and Medicine Symposium, Dubrovnik, Croatia
 23rd Annual Meeting of Chinese Society of Dermatology, Chongqing, China
 1st Taiwan-Germany Bilateral Symposium on Cancer Biology, Academia Sinica,
 Taiwan
 Mini-symposium on Autophagy, Academia Sinica, Taipei, Taiwan
 The Phi Tau Phi Scholastic Honor Society (Distinguished Scholar Award), Tainan,
 Taiwan.
 Academia Sinica-U Michigan Medical School Bilateral Symposium, Ann Arbor,
 Michigan
 2017 Grand Future of Biotechnology Forum—the Grand Future of Biomedical
 Industry
 Tzu Chi University, Chair Professor Lecture
 2017 Bio Tech Talent Symposium, Tainan, Taiwan
- 2018 Academia Sinica-UC Davis Bilateral Joint Symposium (Genome, Glycome, and
 Microbiome of Plants and Animals)
 The 2nd Asian Microbiome Conference
 Academician Cheng-Wen Wu Lecture, the 33rd Biomedical Societies Joint Annual
 Meeting
 Kyushu University Hospital, Kyushu, Japan
 Current Biomedical Sciences Lectureship, China Medical University
 6th Biologics World Taiwan 2018
 The 11th International Symposium on Glycosyltransferases, Qingdao, China
 國防醫學院生命科學研究所 第 18 屆研究生論文研討會
 2018 台灣過敏氣喘暨臨床免疫醫學會

Patents

Patent Title	Inventor	Patent no.	Issue Date	Assignee
Reducing galectin-12 activity to influence the cell	Fu-Tong Liu; Wei-Chen Hsieh; Ri-Yao Yang	US 9,121,021	9/1/15	Academia Sinica
Small interfering RNA and pharmaceutical composition and method for inhibiting galectin-12 expression and/or enhancing lipolysis containing the same	Yen-Ju Lin; Jui-Wen Huang; Fu-Tong Liu; Huan-Yuan Chen; Wei-Chen Hsieh	US 9,777,273	10/3/17	Industrial Technology Research Institute; Academia Sinica
